## Tandem Vibratory Roller

### BW120AD-4

#### EARTHWORKS

# passes	rolling speed (mph)	area coverage sq yd/hr	"productivity in cu yd/hr by lift thickness, 100% efficiency"			
			4 inches	6 inches	8 inches	12 inches
2	4.77	5504	612	919	1225	1837
3	4.77	3669	408	612	817	1225
4	4.77	2752	306	459	612	919
5	4.77	2201	245	367	490	735

#### ASPHALTIC CONCRETE (material weight 140 lb/cu ft)

# passes	rolling speed (mph)	area coverage sq yd/hr	"productivity in tons/hr by lift thickness, 100% efficiency"			
			1.5 inches	2 inches	2.5 inches	3 inches
2	4.77	5504	434	579	723	868
3	4.77	3669	289	386	482	579
4	4.77	2752	217	289	362	434
5	4.77	2201	174	231	289	347
6	4.77	1835	145	193	241	289

Note: Repeat number of passes over the same area is required to achieve specified compaction efficiency/density. Successive passes over same area results in reduced area coverage and productivity. Rolling speed selected provides impact spacing of a minimum 10 impacts per foot at high vibration frequency setting. Actual compaction efficiency is determined by job conditions.

# BW120AD-4

## ■ *Dash 4 Series – Setting the standard for excellence...*

The next generation BW120AD-4, establishes the “benchmark” for all other competitive rollers to measure up to. Combining compact size and high maneuverability with heavy tandem roller features the new BW120AD-4 delivers outstanding performance.

This new model from BOMAG features more performance, increased productivity, improved safety details and unsurpassed operator comfort. Slanted drum support legs with high curb clearance, afford unobstructed view of the drum edges, minimal lateral

offset and the ability to work closely to obstructions and in confined areas.

The two (2) position throttle detail offers dual vibration frequencies, providing maximum compaction results on a wide range of applications and material types.

### ■ Applications:

- Granular sub-base compaction
- Walkways, bicycle and cart paths
- Driveways and Parking lots
- Road rehabilitation and patching

*BW120AD-4 shown with optional folding ROPS.*

*Ergonomically engineered operator's platform providing optimum comfort and maximum productivity.*

#### ■ Handling is Easier & Safer:

- New, slanted drum support legs provide improved visibility of the drum edges, minimizing the possibility of damage when working in confined areas. High curb clearance allows working close to obstructions.
- Central, lifting point, makes strategic handling and loading of the BW120AD-4 easier with little risk of body damage.
- The standard sliding seat arrangement provides improved drum edge and overall side visibility for safer and more comfortable operation.
- The travel control lever and two (2) position throttle control are positioned for easy access and safe operation.
- Fully hydrostatic travel design offers smooth yet responsive control.
- Standard FOPS/ROPS with safety seat belts offer additional operator safety.

## *Light duty tandem models provide maximum versatility and productivity*

#### ■ Achieve Maximum Productivity:

- The BW120AD-4 has two (2) vibration frequencies for optimized compaction on a wider range of material types.
- Vibration can be selectively shut-off on the rear drum to prevent over compaction and material damage to sensitive material types and thin lift applications.
- Large diameter drums minimize pushing and cracking of mat surface, delivering a high quality finish.
- High curb clearance and minimal lateral overhang allow for working close to obstructions, minimizing handwork.
- Standard dual drum scrapers (2 per drum) ensure clean drums in either forward or reverse travel direction.
- Drum amplitude and frequency are optimized to provide high performance and maximum productivity on a wide range of applications.
- Water spray system automatically cancels in neutral travel position, extending tank life.

#### ■ Less Service & Maintenance:

The purchase price is always important, But more importantly are the operating costs.

Check these features:

- Drum vibration bearings and travel system SAHR brakes are maintenance free.
- Drum shell wrapper thickness and head plates are designed to provide maximum strength for long life and durability.
- Bolt-on oscillating, articulation joint provides long life and simplifies repairs.
- Wide opening, lockable, composite engine cover provides easy service access and minimizes possible underhood vandalism.
- The BOMAG hydraulic oil filtration system extends servicing intervals to 2000 hours.
- Daily maintenance check points are quickly completed with easy access, visual indicators for hydraulic oil level, oil filter and air filter.
- Hydraulic test ports are easily accessible for simplified troubleshooting.
- Vandal protected instrument panel insures against on-site electrical problems.
- Water spray pump and filter are easily accessed in a centralized location and sprinkler nozzles are quick disconnect design for easy cleaning when required.

## *Featuring...*

*Wind protected, quick-disconnect spray nozzles with dual scrapers per drum.*

*Bolt-on, maintenance free, center-joint with standard crab steer off-set, provides long life and ease of repair.*

*Easy access to engine and drive components for simplified servicing*

*Best for*  
**COMPACTION**

With these features and many more, it's easy to see why this model maintains a high residual value while delivering lower lifetime operating costs.

# Technical Specifications

## BW120AD-4

### Shipping dimensions

in cubic feet (m <sup>3</sup> )	without/with ROPS	
BW120AD-4	200.3 (5.67)	277.1 (7.85)

### Standard Equipment

- Oscillating articulating center joint
- 2 scrapers per drum
- Isolated operator's platform
- Plastic water tank
- Hour meter
- Lockable engine cover
- Crab walk offset (1.6 in / 40 mm)
- Lockable anti-vandal dashboard protection
- Transport lashing and lifting points front/rear
- Emergency stop button
- Vibration cut-off, rear drum
- Back-up alarm
- Water level indicator
- Fuel level indicator
- Pressurized water sprinkler system
- Laterally sliding seat with contact switch
- ROPS/FOPS with safety belts

### Optional Equipment

- Working lights front/rear
- Edge cutter
- Indicator and hazard lights
- Rotary beacon
- Biodegradable hydraulic oil
- Special paint
- Tool kit
- Double travel lever (Sliding Seat)
- Foldable ROPS with seat belts
- ROPS with seat belts

### Dimensions in inches (mm)

	A	B	C	D	H <sub>1</sub>	H <sub>2</sub>	K	L	O	S	W
BW120AD-4	68.0 (1728)	50.23 (1276)	18.7 (475)	27.6 (700)	70.9 (1800)	98.0 (2490)	9.8 (250)	97.2 (2470)	1.5 (38)	0.5 (13)	47.2 (1200)

### Technical data

**BOMAG**  
**BW120AD-4**

### Weights

Operating Weight.....	lbs (kg)	5732 (2600)
Average axle load.....	lbs (kg)	2866 (1300)
Average static linear load CECE.....	pli (kg/cm)	60.7 (10.8)

### Driving Characteristics (depending on site conditions)

Speed (with vibration).....	mph (kmph)	0-7.5 (0-12)
Speed (for transport).....	mph (kmph)	0-7.5 (0-12)
Max. gradeability without/with vibration.....	%	40/30

### Drive

Engine manufacturer.....	Kubota	
Type.....	D 1703 M	
Tier Compliance.....	Tier 4i	
Cooling.....	Water	
Number of cylinders.....	3	
Performance ISO 9249 (max).....	hp (kW)	34.3 (25.2)
Speed (max).....	rpm	2700
Performance SAE J1349 (max).....	hp (kW)	33.8 (25.2)
Speed (max).....	rpm	2700
Throttle position 1.....	rpm	2200
Throttle position 2.....	rpm	2600
Electric Equipment.....	V	12

### Brakes

Service brake.....	hydrostatic
Parking brake.....	SAHR

### Steering

Steering system.....	oscillating, articulating	
Steering method.....	hydrostatic	
Steering angle +/-.....	degrees	30
Oscillating angle +/-.....	degrees	7
Track Radius, inner.....	in (mm)	103.1 (2620)

### Vibratory system

Vibrating drum.....	f + r	
Drive system.....	hydrostatic	
Frequency.....	vpm (Hz)	3300/4200 (55/70)
Amplitude.....	in (mm)	0.020 (0.52)
Centrifugal force (each drum).....	lbs (kN)	6300/10125 (28/45)

### Water Spray System

Type of water spray system.....	pressurized
---------------------------------	-------------

### Capacities

Fuel.....	gal (l)	10.6 (40)
Water.....	gal (l)	58.1 (220)

Technical modifications reserved. Machines may be shown with options.
